

MILK & MORE

The brand behind your brand

DR. SUWELACK

MILK & MORE

From fresh yoghurt to tempting caramel: milk products are not only an indulgent treat, they can be used as the basis for various applications or as an ingredient to enhance them.

We offer the entire range of dairy specialties as powder. Our assortment gives you the best of both worlds: the incomparable taste of the fresh product and the long shelf life and convenience of the powder.

In addition to the classic milk-based products, we also offer milk-free, vegan alternatives from plant-based sources.

Our research & development team ensures the highest quality and, together with our application specialists, provides innovative products and creative recipes.

Naturally milk!

Powdered milk specialities

Indulgence from sweet to spicy

We offer high-class ingredients suitable for a wide range of sweet and savoury products: from pralines, ice cream and cakes to sauces, chips and dressings.

Premium quality

All products are gently refined and subject to strict quality controls.

Our entire range is kosher and halal certified.

- + Skimmed milk yoghurt powder, organic

Yoghurt

Naturally fermented

Our broad portfolio features a diverse range of gently dried premium yoghurt powders: sweet or sour, aromatic or mild, skimmed or creamy as well as organic.

The secret behind our unique product quality is the fermentation process, performed exclusively at

Dr. Suwelack's premises.

Thanks to our expertise based on more than 100 years of fermentation technology know-how, our products possess exceptional flavour profiles, which can be customised according to your individual requirements.

Lactose-free yoghurt powder

Would you like to use lactose-free products to reach your customers? Then it's time to use the lactose-free yoghurt powder by Dr. Suwelack for your recipes. Whether ice cream, chocolate or creams – our unique

yoghurt powder is the perfect choice. Made from skimmed milk, lactase and lactic cultures, it guarantees naturally fresh yoghurt flavour with less than 0.1% lactose content.

Variety of tastes from aromatic to mild/sweet due to pH levels from 4.3 to 5.9

Dairy Originals

Powdered milk delights

From heavy, creamy mascarpone to light, refreshing buttermilk – whatever delicacies milk offers, Dr. Suwelack supplies the gently dried powder equivalents.

Whether sweet or savoury, there are no limits to your creativity, be it creamy skyr ice cream or crunchy sour cream potato chips.

Lactose-free milk powder

Expand your product range with the lactose-free skimmed milk powder by Dr. Suwelack.

The quality of this versatile milk powder lies in its pure milk taste and above all in its naturally high levels of sweetness – without any added sugar.

- + Without added sugar

Caramilk®

A milk caramel all-rounder

Milk ingredients are the basis of our Caramilk® portfolio.

Caramel, traditionally cooked on site at Dr. Suwelack, is gently processed resulting in exceptional milk caramel powders. Caramilk® naturally lends a typical, pleasant caramel flavour to any application.

With our wide assortment ranging from milky-sweet to strongly roasted, from creamy-white to dark brown, you will find an easy solution for any recipe – let your creativity run wild.

Vast variety of flavours and colours through different roasting degrees

Vegan

Plant-based alternatives

Vegan is *the* trend in conscious nutrition. With our milk-free alternatives from plant sources, you can benefit from the growing demand for vegan products.

The sweet powder extracts offer an alternative to conventional milk powder, enabling you to create new vegan taste experiences.
